

Hot Wire Foam Factory

3D Crab Pattern with Posable Arms and Eyes

What you Need:

- Hot Wire Foam Factory Hot Knife
- Styrogoo or Foam Fusion Glue.

Step 1

Transfer printable pattern via overhead projector to a sheet of foam for your desired size.

Step 2

Using the Hot Knife, follow the transferred pattern, cutting out the shapes shown.

Step 3

Using Styrogoo or Foam Fusion, assemble your cut out peices. You can also use pins or toothpicks when assembling your crab for posable arms and eye stalks.

Take it to the next level!

For a more detailed crawling crustacean you can use our Sculpting Tool and sandpaper on the edges for a more realistic effect. Then, using our Create Coat and All Purpose Foam Coat, you can create a hard shell that will bring your chitinous pal to life! Paint and enjoy!
